For the effective delivery of curricula of these courses, the time table is prepared considering the workload and the faculty with their expertise in specific areas of laws to do justice to the courses and in the interests of students. The teachers prepare the teaching plans in the beginning of the academic term to have a good idea of how to put in practice the curricula along with other activities during the semesters. The students learning is ensured by adopting traditional, modern and blended pedagogical methods of teaching law which includes lectures, case studies and analysis, discussion and clinical learning experience. The academic activities throughout the academic session promote legal learning, communication skills, along with essential analytical, organizing, and reasoning skills among students. The extension activities include visits, legal aid activities and internship programs to further advance advocacy skills. The academic flexibility is ensured through the elective choices offered in the university curriculum to the students. Students are encouraged to gain more knowledge in the emerging areas of law through the SWAYAM portal. The curriculum implementation also ensures inculcation of human values, gender sensitivity, environmental ethics through the organization of various activities. To fulfill the aim of delivering the curriculum effectively, the college makes infrastructural –physical and ICT facilities available for teaching-learning.
